

Tally launches new version

New Delhi, Feb. 23

Management software company Tally Solutions today launched upgrade version — Tally ERP 9 Series 'A' Release 3.0 — designed for seamless business execution with new features and enhanced functionalities, including the incorporation of the new rupee symbol. The new version includes introduction of its bidirectional language feature, simplification of business processes via Job Work and Payroll via Income Tax for payroll, the company said in a statement. Tally also provides another interesting feature that facilitates for 'inter-currency' conversion. Tally allows the user to select a base currency (say INR in this case) and converts the consolidated reports of all international branches of the business into the same. — PTI
